Federal Student Aid Customer Service Center Information (07/26/10)

At this time we want to remind the financial aid community of Federal Student Aid's customer service center resources. Over the past year, Federal Student Aid has added new customer service centers, and we want to ensure the community has the most accurate contact information available.

Federal Student Aid's customer service centers are available to assist schools, third party servicers, lenders, guaranty agencies, students, and parents when they have questions or concerns related to the financial aid process. These resources allow a customer to go directly to the source to get specialized help. Contacting the customer service centers during their operating hours is the most efficient way to resolve a problem and find the answer to a question. The contact information available includes toll-free phone numbers and Web site information for easy access.

For complete information about Federal Student Aid customer service center resources, refer to [the July 23, 2010 Electronic Announcement on the IFAP Web site](#).

Weekly Reminders

NEW!

COD Computer-Based Training (07/30/10)

Federal Student Aid takes this opportunity to remind the community of the availability of the COD Computer-Based Training (CBT). The COD CBT includes enhancements that have been made to the COD System, the [COD Web site](#), and associated Web sites and software products through June 27, 2009.

The COD CBT consists of component simulations and CBTs. Each COD CBT component is explained below. The electronic files associated with each component, as well as information about downloading and navigating the COD CBT, are available on the Information for Financial Aid Professionals (IFAP) Web site. Under the “Tools for Schools” section on the home page, click on [COD Computer-Based Training](#).

Note: With the implementation of the [StudentLoans.gov Web site](#) at the end of March 2010, the three electronic Master Promissory Note (MPN) simulations no longer reflected the process for electronically completing Direct Loan MPNs and have been removed. We will post updated electronic MPN simulations when we next update the full version of the COD CBT.

The components of the COD CBT are as follows:

COD System Simulations – The COD System Simulations offer lessons that explain the [COD Web site](#) screens and functionality available to a school administrator. There are 14 lessons with text to guide a user through each area of the [COD Web site](#). By entering fictitious data, the user can explore basic navigation and functions of the [COD Web site](#) and practice locating and creating information in a safe environment that includes tips for assistance.

Direct Loan Reports CBT – The Direct Loan Reports CBT includes several sections that explain the COD reports a school can use to assist with the administration of and reconciliation process for William D. Ford Federal Direct Loan (Direct Loan) awards.

Grant Reports CBTs – The Grant Reports CBTs are four separate lessons that explain the COD reports a school can use to assist with the administration of and reconciliation process for Academic Competitiveness Grant (ACG), Federal Pell Grant (Pell Grant), National Science and Mathematics Access to Retain Talent Grant (National SMART Grant), and Teacher Education Assistance for College and Higher Education (TEACH) Grant awards.

Direct Loan (DL) Tools Simulation – The DL Tools Simulation demonstrates how to use the DL Tools software to assist with the reconciliation process for Direct Loan awards. Although the simulation can be used both by schools that use the EDEExpress for Windows software and schools that do not use this software, the simulation is especially useful for schools that do not use the EDEExpress software on a regular basis but are interested in a Direct Loan reconciliation resource.

TEACH Grant Web Site Simulation – The TEACH Grant Web site Simulation guides the user through the [TEACH Grant Web site](#) and includes a step-by-step walk through of the process for completing TEACH Grant counseling and completing a TEACH Grant Agreement to Serve (ATS).

If you have questions or comments about the COD CBT, contact the COD School Relations Center. If you e-mail your question or comment to CODSupport@acs-inc.com, please include “COD CBT Question/Comment” in the subject line.
